

Jade Fire™ Oliver Maple

Acer oliverianum subsp. formosanum

A lush Maple with coral pink foliage in early spring turning rich dark green with flushes of coral pink in summer and vibrant yellow in fall, this tree will warm your heart with its:

- Eye-catching colors spring through fall
- Exceptional ability to thrive in in summer heat with high humidity
- Smaller stature that is perfect for our urban gardens

Garden tested for many years, it has proven to be resilient, low maintenance, and a top performer for the landscapes of South Texas and other southern regions.
