

Blazing™ Red Maple

Acer rubrum 'EverBrazos' PPAF

Discovered near our farm in Glen Flora, Texas, this uniquely durable Red Maple has been tested for performance and is distinguished by its:

- New growth from spring until fall
- Leaves that emerge burgundy, then turn red and retain their color
- Ability to thrive in intense heat of summer

An excellent choice for color throughout summer and in the fall, you'll be drawn to the warmth and beauty of its brilliant display of scarlet, maroon and fiery orange.

Exposure	Water Needs	Dimensions
Full to Part Sun	Medium	40-70 feet tall x 30-50 feet wide

Key Features	Landscape Use	USDA Zones
Red new growth, Heat tolerance	Shade, Specimen or Street Tree	6-10

Plant Category

Deciduous Tree

Bloom Color/Bloom Season

Red (small clusters) / Late Winter to Early Spring

Maintenance Tips

Prune in late winter as required for good structure; add mulch around the base to retain moisture
